EXPERIENCE

Softwell Sdn. Bhd.

Sep - Nov 2025

Software Developer Intern

- **Full-Stack Web Development:** Maintained and optimized enterprise web applications using PHP and Laravel, adhering to MVC architectural standards to improve code maintainability and system responsiveness.
- **Hospitality Analytics Dashboard:** Built an interactive room-occupancy dashboard enabling admins to visualize occupancy rates (%) across custom date ranges, replacing manual tracking with real-time reporting.
- **Performance Optimization:** Reduced dashboard load time from 5s to 1s (an 80% improvement) on a 3,000+ record dataset by implementing pagination, lazy-loaded images, and server-side query filtering.
- **Smart Meter API Integration:** Developed API integrations with smart meter systems to retrieve live usage data and enable remote service disconnection for non-payment accounts.
- **UI/UX & Data Management:** Built high-performance dynamic data tables with client-side and server-side filtering and multi-column sorting for large datasets.
